RAILROADER: TRACK SCHEMATIC

Sylva – Bryson – Andrews, branches Alarka, Walker, Connelly Creek · Railroader 0.6.2 Experimental (buildid 26335745) · Maintenance of Way update

LEGEND

- main line
- side track, passing siding, yard track
- industry track (freight)
- interchange (buying and exchanging cars)
- service: repair, MoW yard, engine house
- milestone delivery site
- highlight: track new in 0.6 (MoW milestone)
- passenger platform
- building next to the track (from game data)
- CTC signal: right of the track, triangle points the way it governs
- dead end (bumper)
- 25 — speed limit, mph (curves and stations, as in the game)
- W D C — water · diesel · coal
- turntable
- bridge
- tunnel
- ← 4.6% TOPTON — steepest grade on the section (300 m); arrow points uphill

PAGES (WEST → EAST)

1 RED MARBLE GRADE
Andrews (interchange, wye, Engine Service, Snowbird Paper, Tatham) · Rhodo · Topton

2 NANTAHALA
Graham County RR (pulpwood) · Nantahala · Union Lumber · Nantahala Power & Light

3 LAKE FONTANA
McClain (interchange, wye, Engine Service) · Almond · Wesser · Hewitt (Nantahala Talc & Limestone)

4 ALARKA JCT
Brooks · Alarka Jct (wye, Alarka Jct Site) · Robinson Gap Coal

5 BRYSON
Bryson (yard, depot, Engine Service, MoW, wye, Appalachian Hardwoods) · Hemingway · Governor's Island

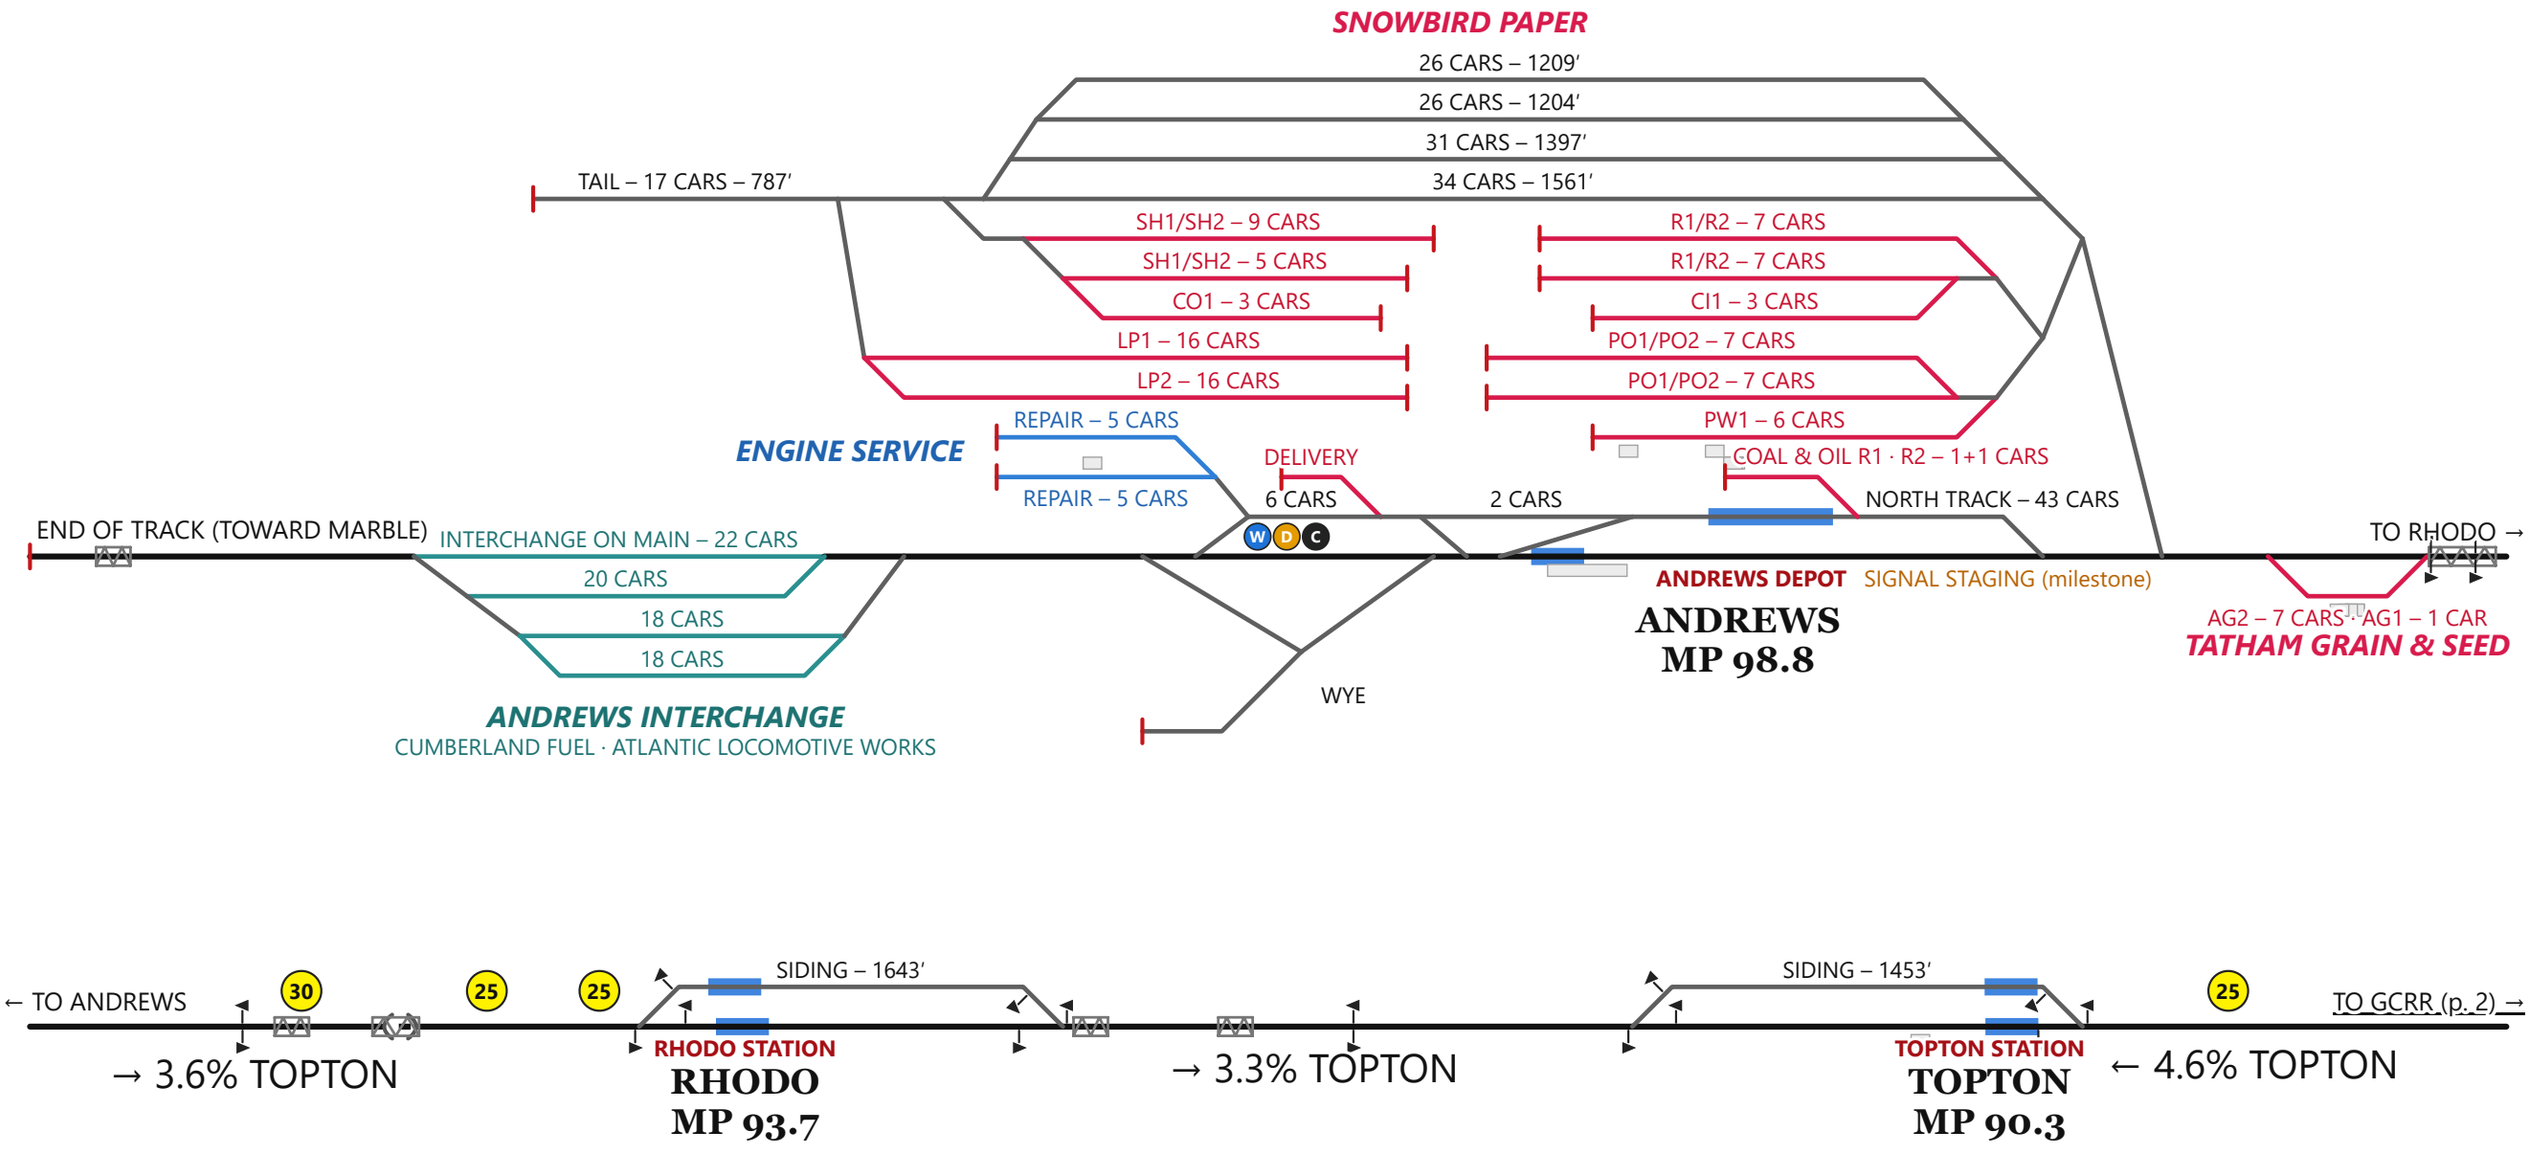

6 TUCKASEGEE VALLEY (W)
Ela · Whittier (wye to Connelly) · East Whittier (interchange, MoW, Engine Service, Saw Mill) · Thomas Valley · Wilmot · Barkers

7 TUCKASEGEE VALLEY (E)
Sylva (interchange, Paperboard & Tannery, wye, Building Supply, Scott Tie Plant) · Dillsboro (yard, Engine Service, Rock Products) · Cowee

8 BRANCHES
Branches: Alarka (Cochran, Alarka, Alarka Copper M1/M2) · Walker · Connelly Creek

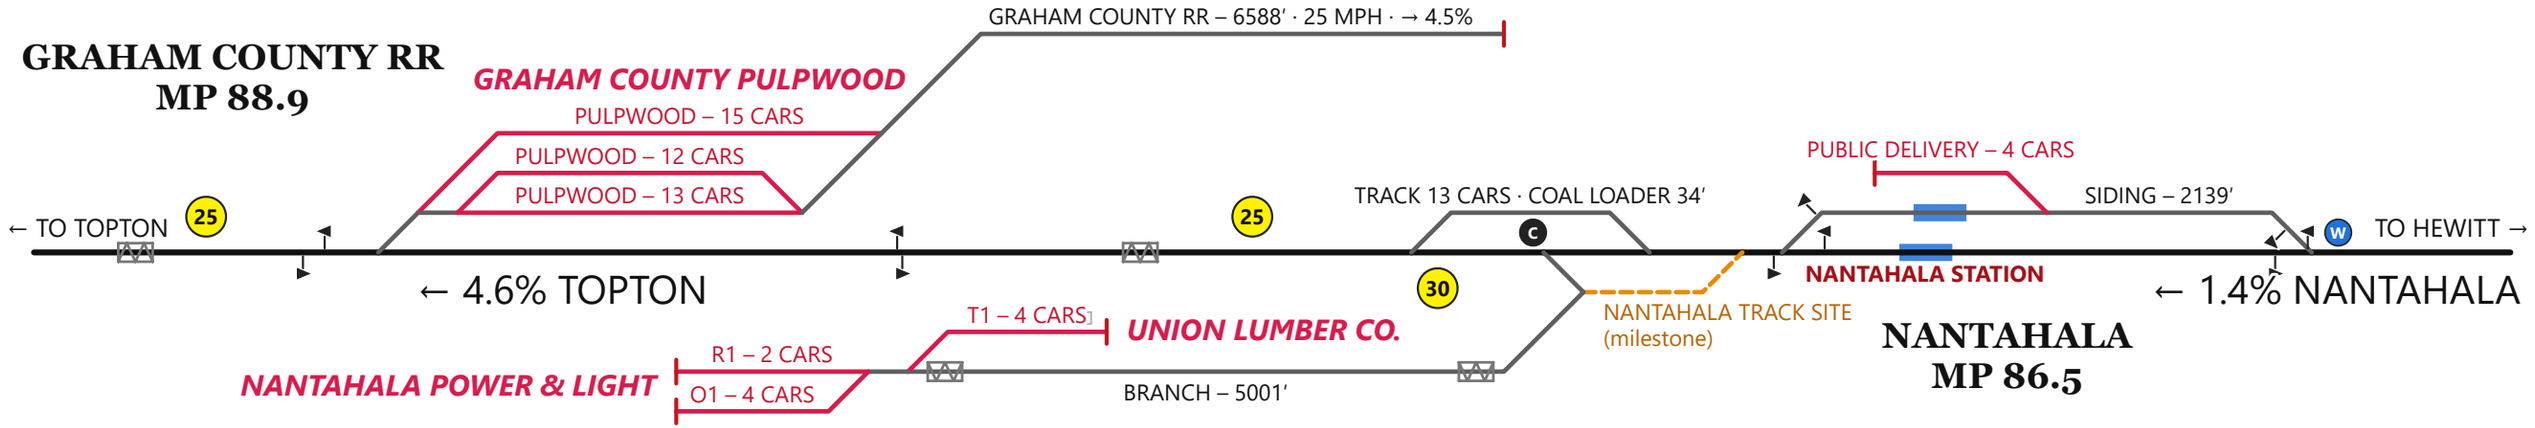

"R1 – 21 CARS": in-game track name and capacity; "16 CARS – 738'": unnamed track, cars and length.
Industry tracks: the loading zone (trackSpan) and the cars that serve it (tank ~35', hopper ~33', boxcar ~41', mines 50' as set by the game), otherwise 45' (as in Dewclaw's v3.0); rounded down. Unnamed tracks and sidings: clear length between the fouling points at the switches.
MP: miles from Sylva Interchange (= MP 45) along the main line.
Not to scale: tracks are straightened; track order and side (north up) are as in the game. West is left.
Checked: all 1901 Map.json track segments belong to tracks drawn on these pages.
